8	Correction Number CP-1883	
9	Log Summary: Retire DCM code for Digital Mammography and replace with LOINC code	
10	Name of Standard	
11	PS3.16	
12	Rationale for Correction:	
13	In a comment to CP-1838 it was pointed out that (46342-2, LN, "breast ffd mammogram") overlaps with (111409, DCM, "Digital	
14	Mammography").	
15	Though (111409, DCM, "Digital Mammography") does not include in its definition the concept of "full field", its normal usage probably	
16	assumes it.	
17	On the principle that DICOM should use external sources of codes rather than define its own, 111409 is retired and its usage replaced.	
18	Correction Wording:	

Amend DICOM PS3.16 as follows (changes to existing text are bold and underlined for additions and ~~struckthrough~~ for removals):
