Log Summary: Correction of child node relation to parent node within part 16, TID 11005	
Name of Standard PS3.16 2019e	
Rationale for Correction: Node of row 4 with Value Type CODE and Concept Name "Consumable New", which is a child of row 3 (see double chevron indention level) has a CONTAINS relation to parent node, which is a NUM. This is neither an allowed Relationship Type for an IAASR Plan nor a Performed Object. See table A.35.19-2 and A.35.20-2 in Part 3. The correct Relationship Type should be HAS PROPERTIES.	
Correction Wording: Change value of TID 11005, row 4, column "Rel with Parent" from CONTAINS to HAS PROPERTIES.	

*Amend DICOM PS3.16 TID 11005 as follows
