Correction Number	CP-2511
Log Summary:	De-identify waveform labels and names
Name of Standard:	PS3.15
Rationale for Correction:	Some Attributes in Waveform IODs contain label, name or description information, which should be added to the list of confidentiality profile attributes in PS-3.15 To discuss with WG-06: Are the Concept/Value pairs in Waveform Annotation Sequence Structured Content (like Acquisition Context)? If so, E.3.4 also requires a closer look.
Correction Wording:
