

DICOM Change Proposal

STATUS	Letter Ballot
Date of Last Update	2026/01/28
Person Assigned	Wim Corbijn
Submitter Name	Jeroen Medema, jeroen.medema@philips.com
Submission Date	2025/03/31

Change Number	CP-2550
Log Summary: Clarify how the SCP knows what SCUs to notify for MPPS	
Name of Standard	
PS3.4	
Rationale for Change:	
The MPPS notification service as specified in PS3.4, Annex F.9 does not specify how the MPPS Notification SCP knows what SCUs to notify on MPPS changes.	
Change Wording:	
See below.	

Update section F.9 with a note of how an SCP knows what SCUs to notify about changes

5 F.9 Modality Performed Procedure Step Notification SOP Class

The Modality Performed Procedure Step Notification SOP Class is intended for those Application Entities requiring notifications of Modality Performed Procedure Step's changes in state.

An Application Entity may choose to take some actions based upon a notification or request for information but is in

10 no way required to do so.

Note

...

- 15 2. The terms IS and PACS used in the previous example are provided for clarification purposes only. This document does not define nor constrain the purpose or role of any IS, PACS or acquisition Application Entity conforming to this Service Class Specification.
3. **It is beyond the scope of the specification to define how the SCP knows about what SCUs to notify about changes. A conceivable way would be to make this a configuration item of the SCP.**
