DICOM Change Proposal

STATUS	Letter Ballot
Date of Last Update	2026/01/28
Person Assigned	steven.nichols@gehealthcare.com
Submitter Name	Jeroen Medema, jeroen.medema@philips.com
Submission Date	2025/07/11

Change Number CP-2570	
Log Summary: Remove first dash of Accept media types in several sections	
Name of Standard PS3.18	
Rationale for Change: There are several occurrences of the Accept Request Header Field value that are erroneous in the UPS-RS sections of PS3.18, namely "1#-dicom-media-type". Here, "1#" is a prefix according to the ABNF List Rule defined in Section 5.1.3 List Rule('#'). The part that follows, in this case "-dicom-media-type" should be a defined token, but this supposedly should have been "dicom-media-type", as defined in Section 8.7.3.5 Media Type Syntax.	
Change Wording: See below, marked in green. Some textual edits have been applied to align the respective sections too.	

Update PS3.18, Sections 11.5.1.3, 11.9.1.3, 12.4.1.3, and 12.6.1.3

11.5.1.3 Request Header Fields

The origin server shall support Header Fields as required in Table 11.5.1-1.

The user agent shall supply in the Request Header Fields as defined in Table 11.5.1-1.

Table 11.5.1-1. Request Header Fields

Name	Value	Usage		Description
		User Agent	**Origin Server**	
Accept	1#dicom-media-type	M	M	The Acceptable Media Types of the response payload.

See also Section 8.4.

…

11.9.1.3 Request Header Fields

The origin server shall support Header Fields as required in Table 11.9.1-1.

The user agent shall supply in the Request Header Fields as defined in Table 11.9.1-1.

Table 11.9.1-1. Request Header Fields

Name	Value	Usage		Description
		User Agent	**Origin Server**	
Accept	1#-dicom-media-type	M	M	The Acceptable Media Types of the response payload.
Cache-Control	"no-cache"	O	M	If included, specifies that search results returned should be current and not cached.

See also Section 8.4.

…

12.4.1.3 Request Header Fields

The origin server shall support Header Fields as required in Table 12.4.1-2.

The user agent shall supply in the Request Header Fields as defined in Table 12.4.1-2.

Table 12.4.1-2. Request Header Fields

Name	Value	Usage		Description
		User Agent	**Origin Server**	
Accept	1#-dicom-media-type	M	M	The Acceptable Media Types of the response payload.

See also Section 8.4.

…

12.6.1.3 Request Header Fields

The origin server shall support Header Fields as required in Table 12.6.1-3.

The user agent shall supply in the Request Header Fields as defined in Table 12.4.1-3.

Table 12.6.1-3. Request Header Fields

Name	Value	Usage		Description
		User Agent	**Origin Server**	
Accept	1#-dicom-media-type	M	M	The Acceptable Media Types of the response payload.
